

Skills:

- **Programming Languages:** Java, JavaScript, Typescript, PHP, C++.
- **Databases:** MongoDB, SQL.
- **Frameworks:** React JS, Angular JS, Node JS, Express JS, Spring boot.
- **Cloud:** Microsoft Azure.

Achievements:

- One-time Employee of the Year.
- Two-time Employee of the Month.
- Gold-Medal in CS in University.
- One-time Hackathon Winner.

Experience:

- I am a senior **full-stack web-developer**, currently doing freelancing on platforms like **Upwork**, where I create websites, e-stores, etc. I am enjoying what I am doing right now but I want to explore more in the field to become a better engineer.
- In the past, I also worked for Devsinc for **5 years**. My experience at Devsinc was very good. Due to my knowledge of API-integration, the time to transmit data between applications was reduced by almost **10-15%**. Also, I designed a framework that increased the company's productivity by almost **5%**.
- Before Devsinc, I gained experience in a basic IT company named IT Solutions, where I designed basic web-pages using Html, CSS, JS.

Objectives:

- I am an experienced web-developer but I am also planning to learn other skills as well like app development, or related fields.
- My main objective is to work with a company that values the employees and gives opportunity to learn new things during the work.
- I want to apply my skills to innovate something new that could potentially benefit the company's growth.
- I want to collaborate with different teams to improve the team-work and productivity by sharing new helpful ideas that could help the company.

Education & Qualifications:

- B.Sc. Computer Science from University of Engineering & Technology, GRW. **(2024-2028)**
- F.Sc. Pre-Engineering from Punjab Group of Colleges, GRW. **(2021-2023)**
- Matric from A plus School System, GRW. **(2019-2021)**
- Certificate in Cloud Computing. **(Google)**
- English proficiency certificate. **(Duo-Lingo)**

Hobbies:

- **Blog-writing.**
- **Coding** for hours.
